

# Kentdale Farms Organic Produce

Fred Dollar  
North Winsloe, PEI

Kentdale Farms Organic Produce is a family farm located in North Winsloe, PEI, approximately 10 km north of Charlottetown. We certified our farm in the summer of 2001. Our farm is certified with the Organic Crop Producers and Processors (OCPP) - a certification body that conforms to the National Organic Standards.

At Kentdale, we grow a variety of crops including; seed potatoes, milling wheat, barley and forages. We maintain soil fertility and minimize pest problems through the use of a four-year rotation, timely cultivation, and providing food and shelter for beneficial insects, birds and animals. We grow a number of potato varieties including Dark Red Norland, Superiors, and Goldrush. A warehouse and grading area was built in 2002 to allow for expansion of our acreage and longer shipping season. We pack in 5 and 10 lb bags. Our markets include retailers in the Atlantic Canada, Ontario and the USA.
